

# Blue Carpet Bluegrass Blend

This blend of elite Kentucky bluegrasses is an excellent choice for overseeding fairways, sports fields and parks, and open space as well as establishing new lawns or reseeding existing lawns originally established by sod. The bluegrass types selected for this mix exhibit very dark green color; improved drought and heat tolerance and can handle the stresses of multiple management levels. The entire genetics package tolerates high wear and traffic levels across a wide range of climates. Adapted to mowing heights as low as 1/2" and has dense growth habit to naturally crowd out *Poa annua* and other weeds.

**Earth Carpet**  
THE SCIENCE IS IN THE SEED™

## Characteristics:

- Dark green and fine textured
- Excellent stress and disease package
- Winter hardy

## Light/Soil Requirements:

- Performs best in full sun or light shade
- Performs well on many soil types

## Seeding Rate:

- Seed at 4 to 5 lbs per 1,000 square feet
- Overseed at 1 to 2 lbs per 1,000 square feet

## Establishment Rate:

- Germinates in 14 to 28 days under ideal conditions
- Fully establishes in one growing season
