

# Tuff Stuff Mixture

Formerly Wear-n-Tear Mix

This mixture of tough, vigorous varieties easily withstands the abuse of continual use. The durable carpet of green stands up to summer stress and requires minimal upkeep. Features rhizome forming tall fescues. Excellent for high traffic areas such as backyards and play areas. Stands up exceptionally well to summer heat and drought - assuming adequate soil prep.

## Characteristics:

- Endophyte-enhanced
- Medium green color
- Medium coarse texture

## Light/Soil Requirements:

- Grows equally well in sun or shade
- Performs well on many soil types

## Seeding Rate:

- Germinates in 10 to 21 days with proper moisture
- Forms a dense turf in 8 to 10 weeks
